One partner, from first idea to **final light**

Ibtikar Alkhamsa is a Riyadh company that designs, builds and manages exhibitions, conferences and events.

We work with government entities, giga-projects and leading companies — organisations whose presence has to be clear, considered and executed to the last detail.

Design, engineering, fabrication, AV production and site management sit under one roof. You deal with one team, accountable for the whole result.

Space has three dimensions. Time is the fourth. The fifth is **impact**.

Impact is what a guest remembers a week later: the first impression at the entrance, the moment they stop in front of a piece, the sense that everything was in its place. We design for it from day one.

In Arabic, *Alkhamsa* — الخامسة — means “the fifth”. The name is the promise.

DIMENSION

05

IMPACT

01 LENGTH

02 WIDTH

03 DEPTH

04 TIME

05 IMPACT

Five **dimensions**

We measure every project on five dimensions. We hand over only when all five are complete.

01 / LENGTH

Reach

Where the space sits, how visitors move through it, how it reads from a distance — and how far it travels on screens and social media.

02 / WIDTH

Showcase

Façade, materials, lighting and where the message lives. What visitors take in within the first few seconds.

03 / DEPTH

Depth

Content, screens, interaction, hospitality and the VIP experience. What makes visitors stay.

04 / TIME

Time

A clear schedule from design to dismantling, and handover before opening. The deadline is part of the design.

05 / THE FIFTH

Impact

The presence that remains after the event closes. The dimension we answer for.

What we **do**

Three disciplines. One team.

01

Exhibition design & build

- Pavilion and national-pavilion design in 3D
- Shop drawings and structural engineering
- Fabrication: joinery, metalwork and finishes
- Installation, dismantling and storage

02

Events & conferences

- Conferences, summits and forums
- Launches and formal gala dinners
- Fan zones, seasonal events and boulevards
- Registration, accreditation, guest and VIP management

03

Visual & technical production

- Stages, screens, lighting and sound
- Event identity and wayfinding
- Print at every scale, and 3D displays
- Furniture, fit-out and space styling

How we **work**

STEP 01

Discover

Objectives, audience, budget and venue.

STEP 02

Design

Concept, 3D design, materials and a clear cost proposal.

STEP 03

Engineer & build

Shop drawings, fabrication in approved workshops, quality checks before shipping.

STEP 04

Install & run

A team on site through opening and every day of the event.

STEP 05

Close & report

Safe dismantling, a photo report and notes for the next edition.

Why **Ibtikar Alkhamsa**

01	**One accountable team**	From design to dismantling, with no hand-offs between suppliers.
02	**Delivered before opening**	We plan time as carefully as we plan design.
03	**Camera-ready finish**	Finishes that hold up to close inspection and professional photography.
04	**Built for Saudi Arabia**	We know the authorities, seasons and venues — and the safety and permit rules that come with them.
05	**International standards**	Materials, specifications and project management at the level of international events.

Our **values**

Innovation
A fresh idea for every space. No recycled templates.

Quality
Finishes that hold up to the close eye and the camera.

Professionalism
Specifications, safety and regulations, followed to the letter.

Commitment
The deadline is part of the design, not a detail.

Partnership
We work as an extension of the client’s team.

Client focus
Your objectives come before our personal taste.

We don’t just build stands.
We create presence.

Let’s build your next **presence**
